Strengths

نقاط القوة

- Dual-tier brand architecture (AZAL + Maison Ein) that no competitor replicates
- Under-abaya dress category (SAR 350-450) with zero competitive pressure
- 14 active Meta ads with bilingual storytelling — more sophisticated than any competitor

Weaknesses

نقاط الضعف

- Zero customer reviews on store — Sadal has 82+ per product, creating a massive trust gap
- No email capture, no WhatsApp button, no abandoned cart recovery — zero retention infrastructure
- BNPL per-installment amounts not displayed on product pages

CHALLENGE

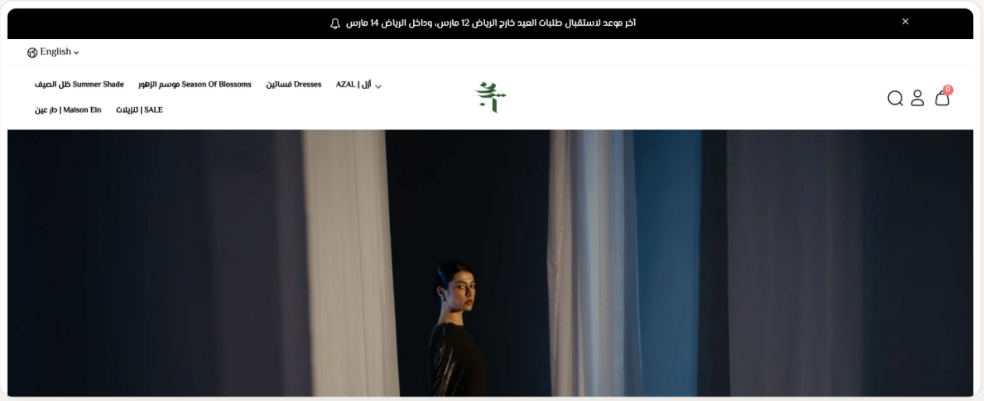
التحدي

Challenge 1: The Trust Gap

التحدي الأول: فجوة الثقة

Customers cannot feel fabric, verify sizing, or read reviews before committing SAR 300–795 online

- Top 3 purchase barriers: sizing uncertainty, fabric-feel anxiety, color accuracy concerns
- Zero visible customer reviews vs Sadal's 82+ per product
- At mid-premium pricing, trust is the conversion bottleneck



98%

WhatsApp open rate in Saudi Arabia

25% abandoned cart recovery documented for a Saudi women's wear label

Yet Ein Abaya has zero retention marketing infrastructure — every lost visitor is permanently lost.

Challenge 2: Zero Retention Infrastructure

التحدي الثاني: غياب بنية الاحتفاظ بالعملاء

No email capture, no WhatsApp automation, no abandoned cart recovery

- No competitor shows evidence of retention marketing in the entire Saudi abaya category
- Email automated flows generate 30x higher revenue per recipient than campaigns
- First-mover advantage: build the category's first comprehensive retention system

590+

Active Meta abaya ads in KSA

Every single one uses product-catalog format. Zero brand storytelling.

Ein Abaya already runs 14 ads more sophisticated than any competitor — but UGC, retargeting, and BNP...

Challenge 3: Homogeneous Paid Media Landscape

التحدي الثالث: تماثل الإعلانات المدفوعة

A sea of identical product-catalog ads — and a wide-open opportunity

- No brand uses story-driven creative, UGC try-on content, or retargeting-specific ads
- Ein Abaya's existing bilingual story ads are already the most sophisticated in the category
- Opportunity: dominate attention with collection stories, UGC, and emotional hooks

OPPORTUNITY

Differentiate through story-driven paid creative and retargeting messaging — formats zero competitors use

Campaign Goals

أهداف الحملة

01 **Launch Zid store as a conversion-optimized experience**
Close all CRO gaps — BNPL display, reviews, email capture, WhatsApp — before driving paid traffic

02 **Make Summer Shade 2026 the biggest collection launch**
Multi-channel campaign timed to Eid al-Fitr, capturing the 45% seasonal search surge

03 **Build a retention engine that generates revenue on autopilot**
WhatsApp + email flows: welcome series, abandoned cart recovery, VIP early access

Campaign Goals (continued)

أهداف الحملة (تابع)

04 **Establish Ein Abaya as the defining mid-premium Saudi abaya brand**
Own the SAR 300-795 gap between value players and luxury through storytelling and social proof

05 **Capture Sofarah's orphaned customer base**
Branded search + social retargeting — their Shopify store is offline, customers need a new home
